SUPPLEMENT TO
REPORT NO.

25X1X

F1d
2

1. In the early part of June, the repair shop at Sonkyo-ri Airfield, Pyongyang, was repairing 3 transport planes, 3 fighters, 1 reconnaissance plane, and 3 training planes.
2. The shop has a regular maintenance crew of about fifty. Most of the personnel have been employed there since the Japanese occupation and are highly skilled technically. No Soviet advisors are attached to this shop.

25X1A

[REDACTED] describes Soviet activities at Sonkyo-ri and tells of the arrival of plane parts from the USSR.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
